

TALK TO A DOCTOR ANYTIME, FROM ANYWHERE.

Now global telehealth* is available
through your Cigna Wellbeing™ App.

When you don't feel well, you want to get better fast. There are times when a visit to a doctor's office is difficult to manage. But now you can have convenient access to quality health care through global telehealth, a new service available with the Cigna Wellbeing App.

Global telehealth gives you access to licensed doctors around the world - by phone or video - for non-emergency health issues. Simply arrange a telephone or video consultation from your Cigna Wellbeing App. Appointments are often scheduled for the same day.

What can I use global telehealth for?

- **Video or phone consultations** with a licensed doctor
- **A diagnosis** for non-emergency health issues ranging from acute conditions to complex chronic conditions
- **Non-emergency pediatric care**
- **Prescriptions** for common health concerns, when medically necessary
- **Treating medical conditions** like fever, rash, pain and more
- **Making preparations** for an upcoming consultation
- **Discussing** a medication plan and potential side effects

How does it work?

1

Request an appointment.

Use your Cigna Wellbeing App to make an appointment with a doctor anytime, anywhere, 24/7.

2

Speak with a doctor.

Your initial global telehealth consultation will be with a general practitioner (GP) – by phone or video.

3

Feel better.

When necessary, a prescription will be sent to you to take to your local pharmacy.

If the GP feels that you should speak with a specialist, the GP will schedule another telehealth appointment with an Advance Medical** network specialist.

Cigna will provide you with access to over 110 board-certified doctors based in different locations around the world. These health care professionals:

- Include internal medicine physicians, gastroenterologists, orthopedic specialists, mental health specialists and pediatricians
- Have an average of 10 years of clinical experience
- Can write a prescription when necessary and permitted
- Are available from anywhere around the world
- Offer services in English, French, German, Mandarin Chinese, Hindi and Arabic

Why is global telehealth such a valuable service?

- **Affordability.** It's an alternative to doctor office or clinic visits – with no deductibles or coinsurance payments
- **Convenience.** There's no need to leave the house or your workplace
- **Around the clock access.** That's 24/7/365 access to a top doctor, usually within 24 hours (time can fluctuate depending on language preference)
- **Flexible scheduling.** Have mobile app access to real-time scheduling, so you can set up your appointment easily, at a time that works for you
